How Do I Create a New File from Windows? Once you have opened the File menu, you'll see that there are 2 . Nov 1, 2011 . A: As documented, QuickBooks Desktop passwords must be set up manually via Intuit's Help Desk. For QuickBooks Pro, although there is no option to automatically back up password information or restore credentials if they are lost, there is a small window to show the current password. Pressing the 'C' key then selecting 'Change' will allow you to enter the new password. The new QuickBooks Pro passwords must be saved and then provided to the users. Users are given the option to save their passwords to their own local machine or on our servers. If you use a shared Intuit password then you will need to contact the company you purchased the license from to setup a shared password. Q: Adding widgets in tkinter frame I am trying to add a DateTime label widget to the.pack() method of a tkinter frame, but it fails to work. I tried using pack_propagation=False but it didn't work. What is going on here? Here is the code: import tkinter as tk class MainWindow(tk.Frame): def __init__(self, root): tk.Frame.__init__(self, root) self.pack() # Add the DateTime widget to the parent frame self.label_clock = tk.Label(self, text = "10:12", justify = "right", width = 30
